DRAFT/HM:hh
12 Jan. 55

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Project AQUATONE -- Photographic Equipment

1. Reference is made to the memorandum dated 11 January 1955 addressed to you by Dr. Edward H. Land, which makes certain recommendations with respect to photographic equipment for use in connection with Project AQUATONE.

2. While no extensive study of current U.S. Air Force activities relating to photo-reconnaissance has been made, in view of the extensive experience of Dr. James G. Baker and Dr. Land as consultants to the Air Force, we concur in the recommendations made by them as outlined in the attachment to the 11 January memorandum mentioned above.
